Protégé

STEEL BEDROOM SERIES

Protégé Series

If you are looking for highly durable dorm or shelter furniture with a sleek design, look no further than Norix's Protégé™ series – a value driven series of products designed for constant use in environments that historically have been institutional in nature. Protégé™ furniture offers an all steel construction that delivers reliable performance and outstanding value. The design and engineering is ideal for transitional housing and dormitory needs.

Bunkable Bed
Laminate Headboard (Optional)

Double Bunk Bed
Laminate Headboard (Optional)

Nightstand
Laminate Top

Underbed Storage
Laminate Fronts & Top

Locker
Laminate Front

Features That Matter

Adjustable Glides

Adjustable, nylon floor glides protect the floor from scratching and allow for easy stabilization if placed across an uneven surface.

Bed Bug Resistant

The all-steel construction is naturally cool and relatively dry, offering unsuitable conditions for bed bugs to manifest.

Tamper Resistant

The fully welded end frames and mattress deck eliminates the need for screws and other parts that may loosen over time.

Bunking Kit

A Bunking Kit, consisting of two safety rails, one ladder, four bunk connectors, one wall mount bracket and hardware, is included with each bunkable bed for added safety and security.

Rounded Edges

Smooth, rounded edges provide a pleasing aesthetic and contribute to a safe design.

Strength of Steel

The heavy-duty, all-steel construction is engineered to withstand the rigors of challenging environments, ensuring a safe, secure environment for residents and staff.

Wood Grain Accents

Optional wood-grain style, institutional-grade laminate headboards and accents offer a warm, homelike feel without sacrificing cleanability or long-term durability.

Infection Control

The steel frame, and optional institutional grade, high pressure laminate headboards and accents, can be safely sanitized with bleach solutions and hospital-grade cleaners without affecting the surface material or color.
